EB Number Counter

Creative Blocks · https://essential-blocks.com/docs/eb-number-counter/

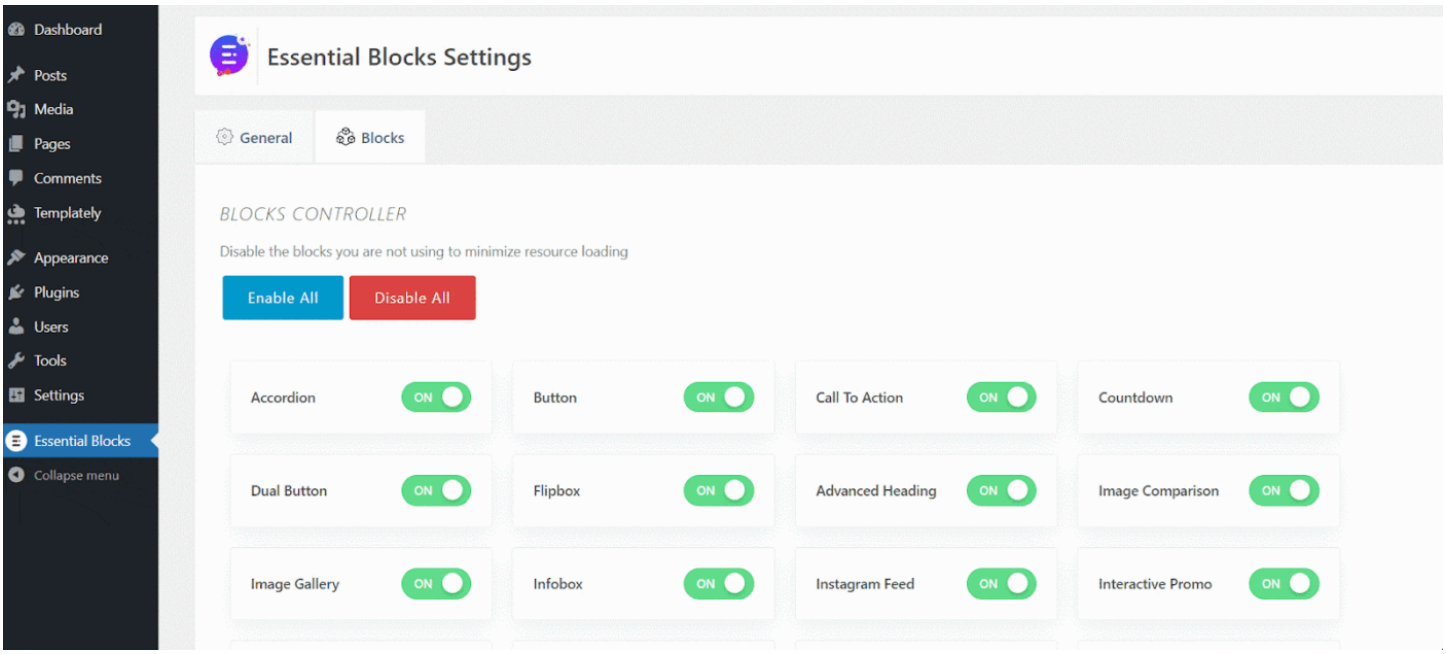
With the **EB Number Counter**, you can create a stunning visualization for your site visitors by putting a spotlight on important data. Showcase any milestone or any big achievement number on your website by adding proper animation effects with flexibility and amaze your audience.

Follow this step-by-step guideline to design website content using the Number Counter block from Essential Blocks for Gutenberg.

How To Activate EB Number Counter Block?

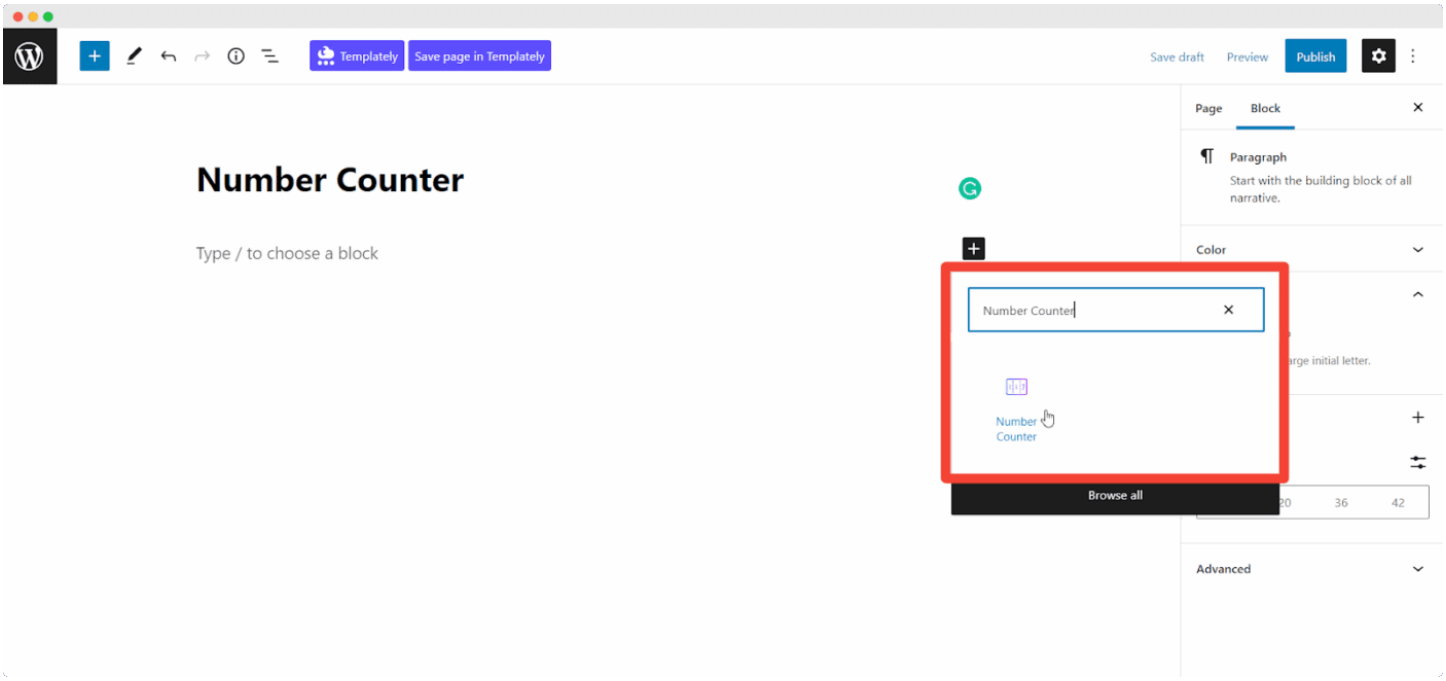
First, **install and activate the Essential Blocks** for Gutenberg plugin into your WordPress dashboard. Essential blocks comes with modular control which gives you the freedom to enable only using blocks.

To activate EB Number Counter, navigate to **Essential Blocks → Blocks**. Then, toggle to enable this **'Number Counter'** block. After that, click on the **'Save'** button.

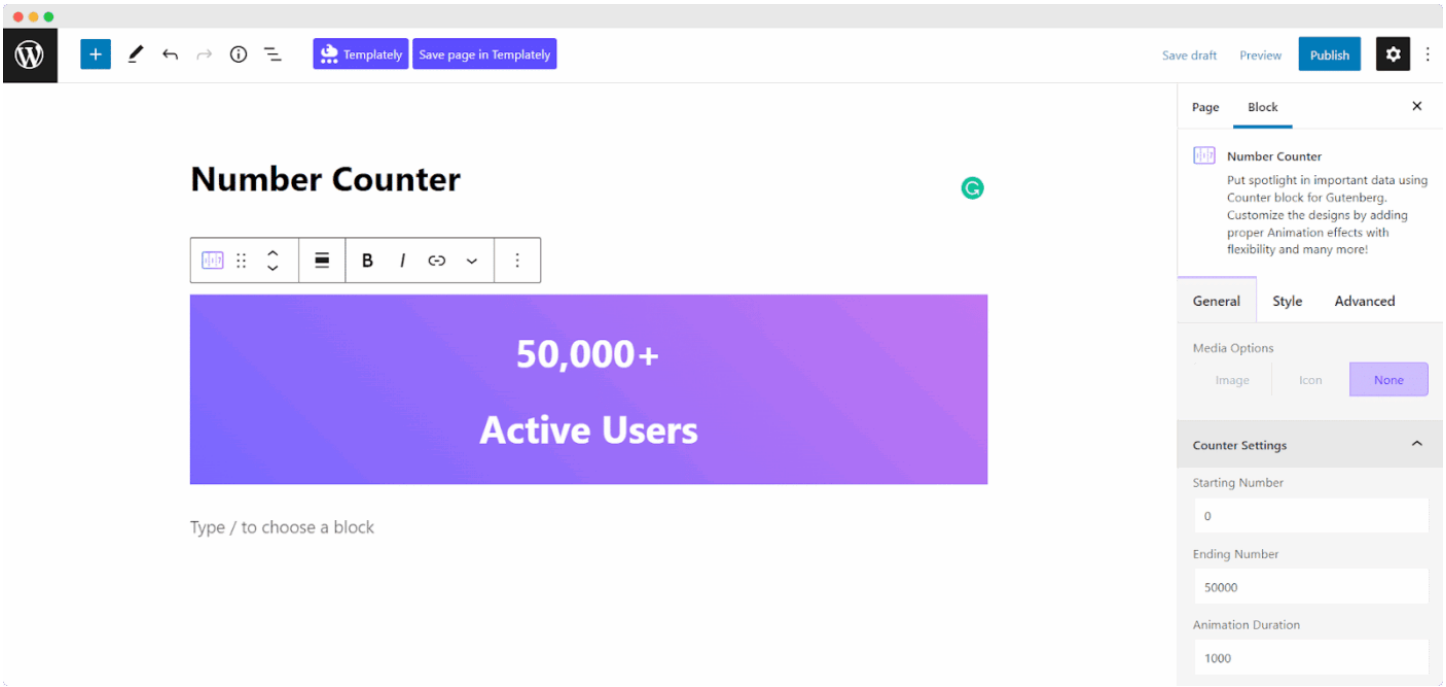


How To Configure EB Number Counter In Gutenberg?

Here, open a new page where you want to add the **EB Number Counter**. Then, click on the '+' icon to add a new Block. Afterward, find '**Number Counter**' from the search option. Simply just click on the block and it will be activated.

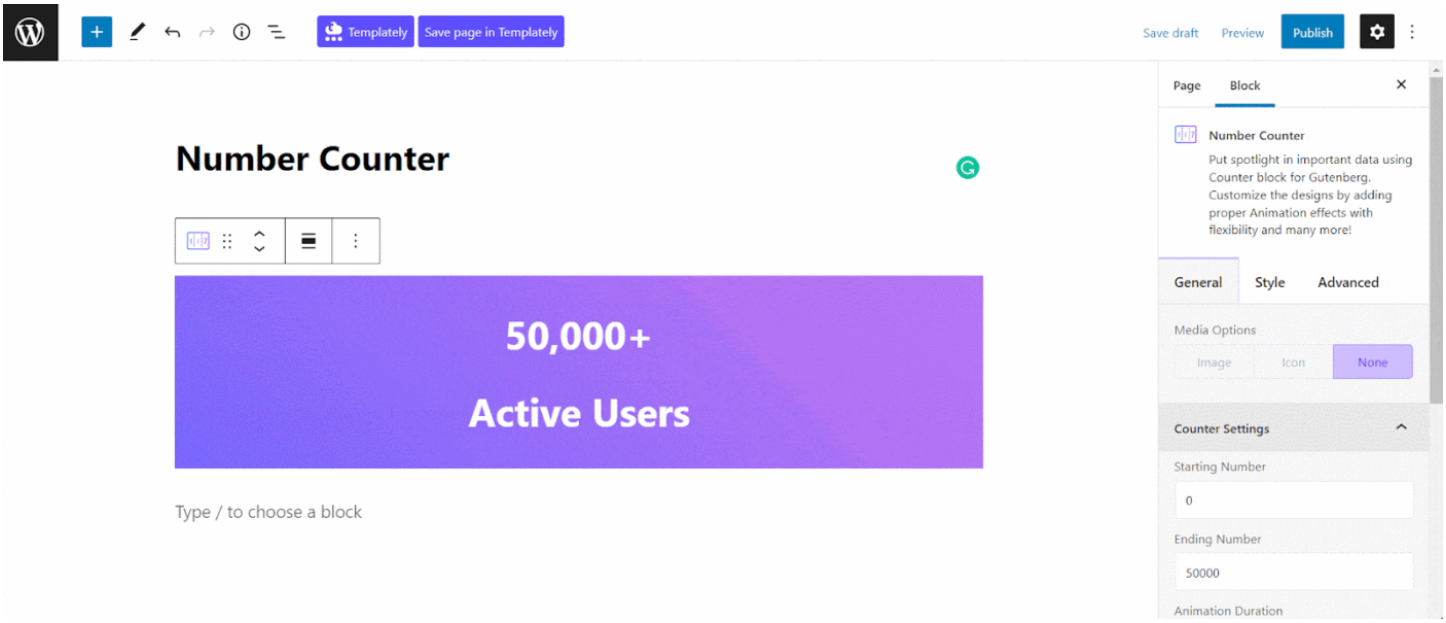


After you are done with this step, this is the **default layout** you are going to see.



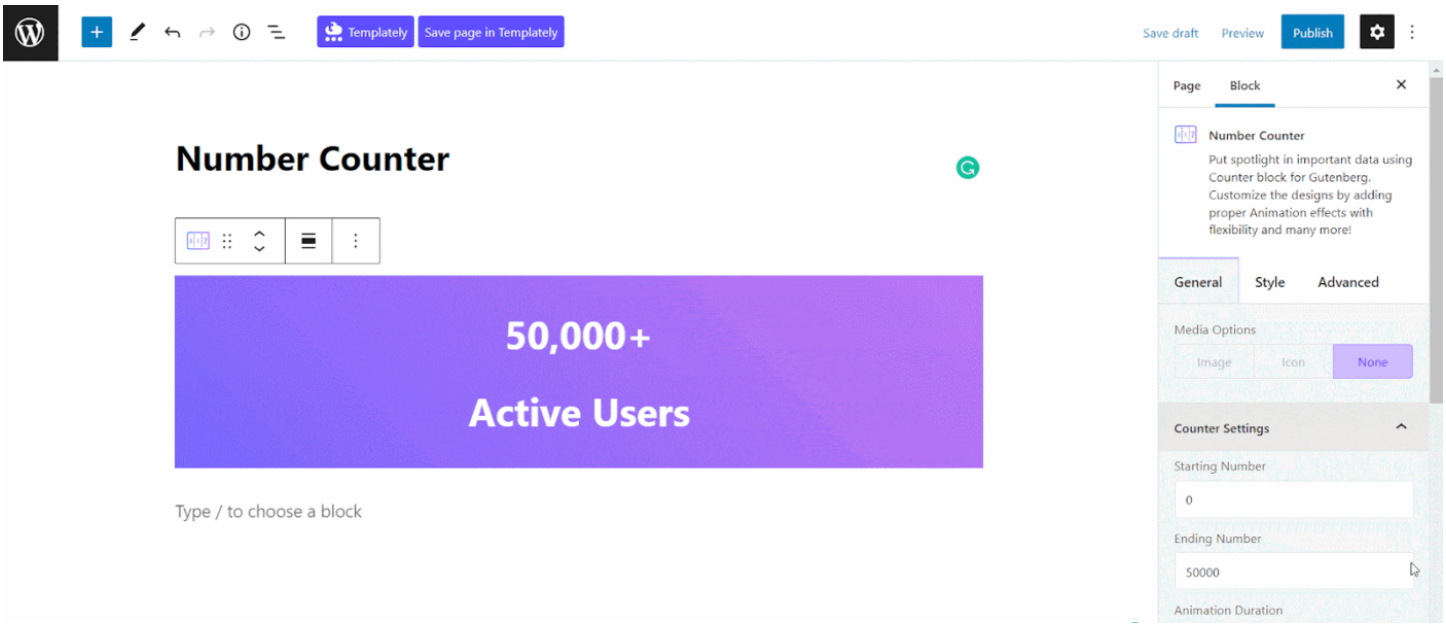
General

You can configure the **Counter Settings** from the General tab. You can customize starting number, ending number, animation duration, etc. Also, you can add number prefix & suffix. You can also select the separator style from the **3 presets** of the block.



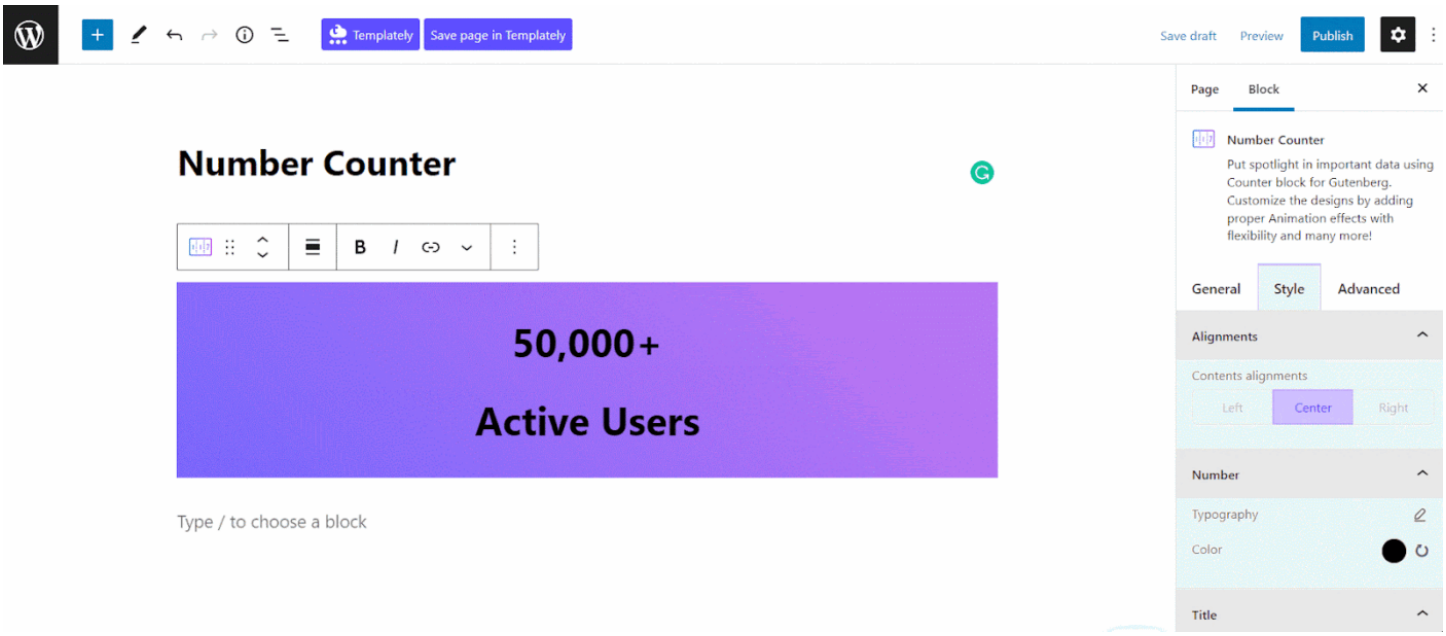
Style

There are tons of styling options for you to make your Number Counter truly stand out. From the **Style tab**, you can choose the content alignment and style the color & typography of number, title, prefix, suffix, etc to make it more attractive.



Advanced

From the **Advanced tab**, you can modify the margin, padding, background color, border & shadow color, etc. You can choose the Border Style from the **9 presets** of the block.



Final Outcome

By following the basic steps and a bit more modifying, you can style the Number Counter block however you want. Play around with the settings to design a stunning Number Counter to amaze your audience.
