Before you begin, make sure that you are using the WordPress Gutenberg editor on your website. Follow the steps below to install **Essential Blocks for Gutenberg.**

How To Install Essential Blocks

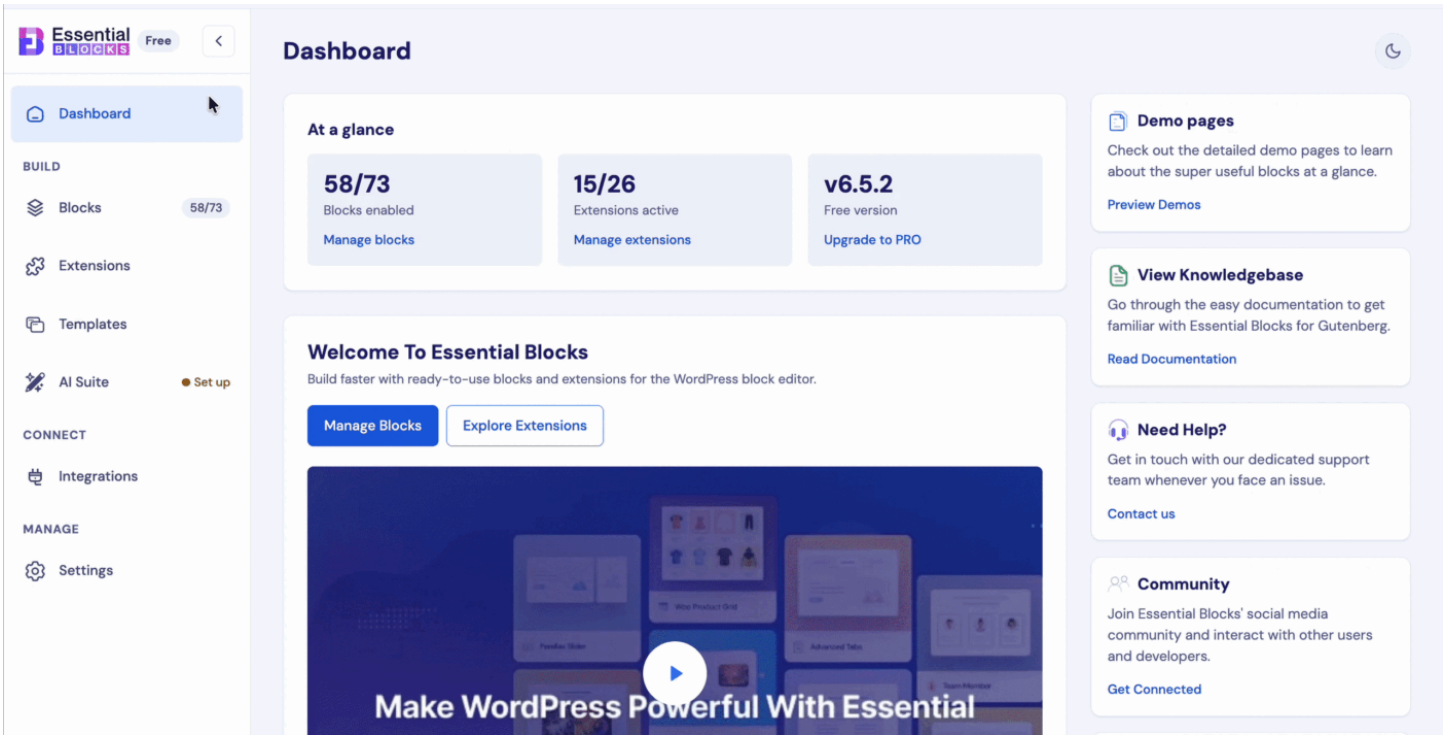

Step 1: Go to your WordPress Dashboard and navigate to **'Plugins' → 'Add New'.** Then in the search box, put out the keyword 'Essential Blocks for Gutenberg'. Then simply click on the 'Install Now' and 'Activate' buttons to install and activate the plugin.

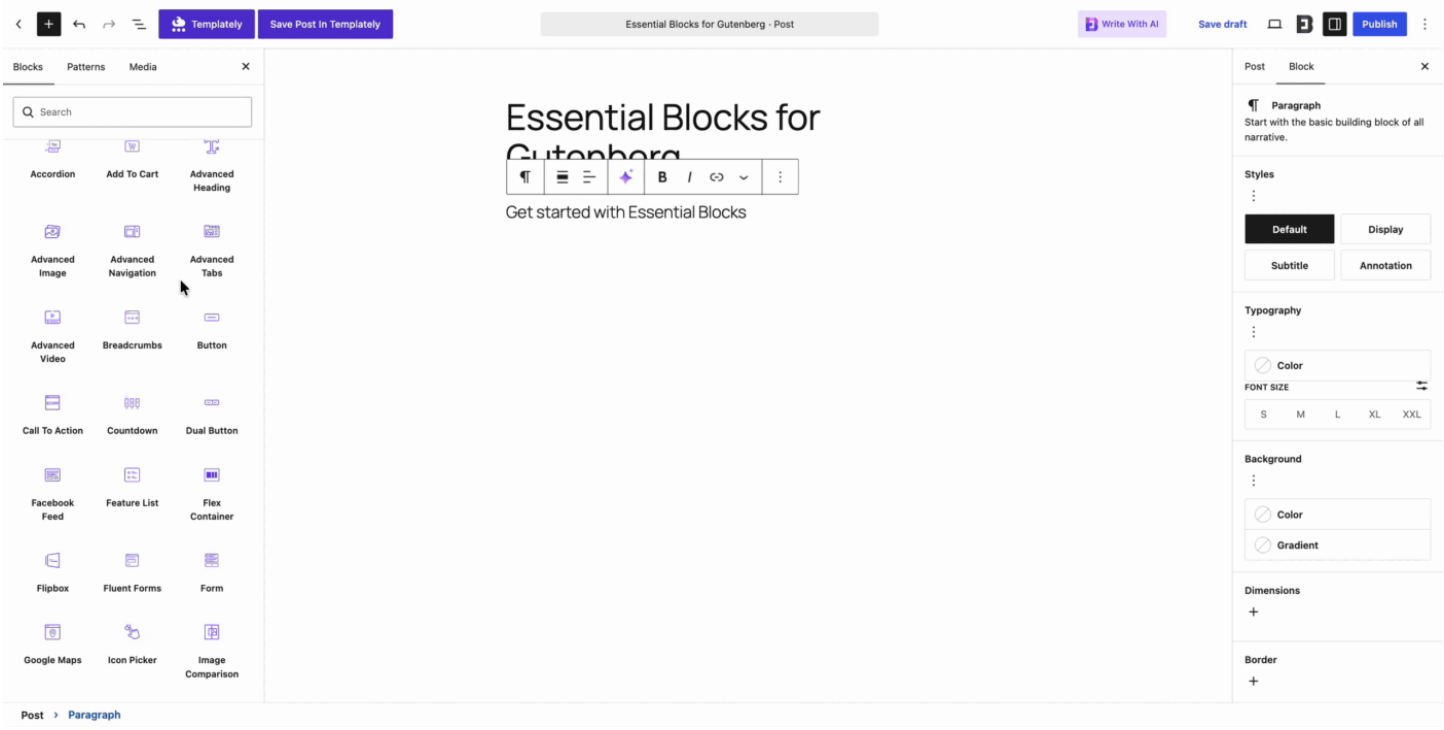

Step 2: After you have successfully completed Step 1, **'Essential Blocks for Gutenberg**' will appear in the WordPress Dashboard.

Step 3: Navigate to the Settings page of Essential Blocks for Gutenberg. Here you will find five tabs: **Dashboard, Blocks, Templates, Settings,** and **Integrations**.

Step 4: To start using Essential Blocks, simply create a new post or page from your WordPress Dashboard. Click on the '+' icon at the top of the page and add a new block. Scroll down to find Essential Blocks, and click on any of the blocks you like to start using them.

This is how easily you can install **Essential Blocks** and unlock the ultimate blocks library for Gutenberg.
